=

Teachers' Feedback taken in the Academic Year 2022-23 (Odd Semester) and (Even Semester) both were reviewed on 29-03-2023 by the Principal and the Staff. The feedback revealed that the teachers kept them updated, related the content of the syllabus with the real-life situation, taught effectively, completed their syllabus, encouraged students to use library, participate in various activities. While the feedback Pie & Bar Charts on issues like "whether the syllabus covered a wide range of knowledge and information", "helped students to develop their personality", "efficacy of online mode of teaching" received relatively less approval. The teachers were found to make maximum use of smart class. They engaged students in examination-oriented activities so that all – the slow, medium and good learners were benefited. The mention of such activities was made in the registers issued to the heads of all departments along with signatures of students, concerned teachers and HOD. The same was countersigned by the principal.
